ENSEM (École Nationale Supérieure d'Électricité et de Mobilité)   Nancy, France
Master's in Engineering, Digital Systems Specialization   September 2020 - Expected September 2024

SKILLS

Languages: Fluent in French, Advanced in English
Programming: Advanced in Python, SQL, Fundamental understanding in Java
Computer science: Experience working with Pandas, Scikit-learn, Transformers, Pytorch and PySpark

EXPERIENCE

CGI   Paris, France
Consultant Intern   March 2024 – July 2024
• Developed a predictive model for railway traffic specific to the Île-de-France region, focusing particularly on clustering techniques.
• Enhanced the pipeline by adding new features, ensuring the continuous improvement and industrialization of the model.

Leyton   Casablanca, Morocco
NLP Engineer Intern   January 2023 – July 2023
• Spearheaded the creation of a cutting-edge natural language processing model for industry classification based on the GICS framework, starting from initial conception to final optimization.
• Engaged in continuous research on the latest NLP advancements, integrating findings to consistently enhance model performance over the course of the project.

ACTIVITIES

Rugby   12 years
Developed strong character and teamwork skills through a passion for the game.

Scout
Over 15 years of involvement in scouting, emphasizing leadership roles, project management, and team collaboration.

• **Scout Leader**   (2019-2023)
     Organized and led summer camps for groups of 25-30 children, demonstrating organizational and budgetary acumen.
     Crafted engaging games and actively participated in camp narratives to instruct and engage participants.

• **Community Service Projects**   (2017-2019)
     Functioned within a tight-knit team of five, engaging in multi-phase projects aimed at raising funds for impactful community outreach.
- 2017: Collaborated with Lérins Abbey to present and guide tourists, highlighting its historical and spiritual significance.
- 2018: Facilitated regional cycling expeditions, fostering community connections with local farmers.
- 2019: Orchestrated activities at a 'children's village,' creating memorable experiences for estranged children during a three-week initiative.
